Project: Bowl Bonnet

Make gorgeous bonnets to use in place of plastic wrap on bowls, plates, and more, to keep food fresh in the fridge or on the go. Use a Betty when taking or gifting a covered dish or holiday cookie plate.

Make in any size needed based on the size of your dishes, up to 14" across.

Measure your dish, then fuse a little, cut a little, sew a little and done! Pattern dish sizes: 7" bowl, 11" plate.

Supply List:
