This Landscape art quilt was sketched in the mountains of Colorado. Feel free to work off of a favorite landscape or photo. Full instructions and templates will be provided in class.

## **Finished Size: approximately 18" X 14"**

Sewing Machine with a couching foot (optional) and a regular foot. Please make sure your machine is cleaned, oiled, and in good working order.

Needles (80/12 or 90/14)

Scissors: Small & Large

## **Fabric & Interfacing, Etc.**

- Scraps of fabric (ironed) to create mountains, water & sky. For this art quilt I used purples for the mountains, and the same fabric for sky & water, in sunset colors. Don't stress over this! Batiks work well, anything without distinctive prints.
- Fabric for the Inner Border (1/4" yd), Outer Border, Binding (1/2 yd of each) & Backing (a little over 1/2 yd).
- Batting (1/2 yd or large scrap)
- Fusible web similar to Wonder Under or Steam a Seam-approx. 1yd
- Medium to heavy fusible interfacing. 1/2 yd
- Note: the adding borders and finishing will be demonstrated but done at home.

## **Threads**

- For the landscape: a lightweight thread to match the mountains.
- For Thread Painting-a normal weight (approx. 30-50 weight) that will stand out against the mountains. This will be used in the foreground.
- Heavy thread or yarn for the overhanging trees. NOTE: I will be bringing a large variety of threads for you to use.

Optional: If you have a small iron and pressing service, bring it. If not, no worries I will have extras set up to share and there are the ironing stations as well).

I look forward to sharing my love of landscapes with you. Using up scraps and capturing your favorite photos. If you are in need of certain fabric colors, please text me, I can bring you fabric!

Please feel free to text me with any questions.
