

Supply List

Ruler Work Design Lab - Traditional Blocks

In this class we will look at some traditional quilting blocks and discover ways to quilt them using the Westalee Design Rulers. We won't be stitching on fabric but we will be playing with paper and pencil and drawing out designs. See all the great design possibilities that you have with these rulers. At the end of the class you will have several designs that you can stitch out in quilt blocks and learn ways that you can work at creating your own designs.

SUPPLIES

Mechanical drawing pencils or pencils and a pencil sharpener

Eraser

Pad of Graph Paper (at least 8 1/2" x 11", 11" x 17" is better)

Ruler (at least 12" long)

Westalee Design Stitching Line Discs (WA-SLD) - These acrylic disks have a hole in the center to allow you to place a pencil or marking pen in the center. This will ensure that the designs you draw using your templates will be accurate in replicating the size of the design when it is stitched out using a ruler foot on a domestic sewing machine.

Feel free to bring along any sewn tops/projects that you are wanting to quilt with rulers in which you would like to work out some designs that you could use in these projects.

WESTALEE DESIGN RULER REQUIREMENTS

Bring the 12" Arc from the starter set and the rulers from the Westalee Design Sampler Set.
Bring any other Westalee Design rulers that you might have .
